CHAIRPERSON'S REVIEW REPORT

I am pleased to place before you annual report together with audited financial statements of First Treet Manufacturing Modaraba for the year ended on 30th June 2018 and the auditors' report thereon.

Generally 2017-2018 was a good year for the Country generally but since it was the first year (04 month) for the battery operations, financial results of your Modaraba have shown losses.

Generally, factors that contributed to the negative performance were as follows:

1. Battery operations have been kicked-off this period. But since resources (e.g. labour force, technical experts, depreciation etc.) has to be pooled at outset (expense side) before sales volumes are getting momentum;
2. Grid installation was under process in this period so your Modaraba had to bear higher fuel costs in the form of diesel generation in battery plant ;
3. Corrugations margins are squeezed due to intense competition;
4. Soaps margins are also dropped due to reduction in sales volumes;
5. Financial charges due to increased bank borrowing levels;

But your management is determined to cope with challenges and is working on the strategy to increase its sales volumes and to avail full benefits of the opportunities by continued focus on quality, productivity, and cost control and after sales service to improve its competitiveness.

Your Modaraba has maintained effective system of Internal Controls, upgraded its Information System and has successfully implemented Oracle Financials across its business units (SBUs).

At the Board level we endeavor to fulfill our Corporate Social Responsibility, nurture Business Ethics across the business units and operate an effective Administrative Procedures and Controls coupled with very sound Human Resource Management Policies.

We stay committed to effective product mix management, optimization of our value chain process, investment in technology and information systems and promoting a balanced trilateral customer-organization-supplier relationship.

We firmly believe in reducing business risk through our diversification stratagem [investment policy] and mitigating financial risk through our Financing Strategy.

We would like to thank our customers for their trust and also like to thank all our colleagues, management and staffs that are strongly committed to their work as the success of your Company is built around their efforts. We also thank our certificate-holders for their confidence in the Modaraba and assure them that we are committed to do our best to ensure best rewards for their investment in the Modaraba.

DIRECTORS' REPORT

Board of Directors of Treet Holdings Limited (THL), the Modaraba Company of First Treet Manufacturing Modaraba (FTMM), is pleased to present the Directors' Report on the 12th annual accounts of FTMM for the year ended June 30, 2018. These accounts have been audited by statutory auditors of the Modaraba and are accompanied by their audit report.

ECONOMIC OUTLOOK

The services sector recorded a robust growth of 6.43 per cent in last two years – a major impetus along with the agriculture sector which grew by 3.81pc for achieving higher GDP growth of 5.8pc during 2017-18.

According to the Pakistan Economic Survey 2017-18, the most important achievements of the fiscal include the fastest pace in real GDP growth on the back of strong growth in agriculture, impressive growth in manufacturing as well as in services.

Growth momentum remained above 5pc for the last two years in a row and reached 5.79pc in FY2018 which is 13 years high on account of a strong performance

in agriculture, industry and services sectors which grew by 3.81, 5.80 and 6.43pc, respectively.

CPI inflation decreased to 3.90% from 4.20% last year. Moreover, this inflation is mainly resultant from demand side growth ensuing in declined unemployment rate.

Exchange rate depreciation has been identified as major risk to inflation outlook whose impact will be realized after a time lag through higher import prices which will translate into domestic prices.

[Source: Monetary Policy Statement, September 2017 of State Bank of Pakistan & Pakistan Economic Survey 2016-17]

Prices of commodities and metals have shown increase from July 2017 to January 2018.

That will be translated into higher inflation in the coming months.

GENERAL

Sales volumes are increased due to Battery segment but gross margins are decreased due to battery segment (as described below) and reduction in margins in Corrugation segment due to increased cost of raw material and Soap segment due to reduction in volumes. Net profit is reduced mainly because of financial charges to finance the working capital and project financing of Battery Project.

CORRUGATED PACKAGING

Sales volumes are slightly reduced but margins are decreased due to following factors:

1. Increased cost of raw material;
2. Increased freight charges;
3. Limited pass through impact (i.e. increased cost is not pass through to the customer due to intense competition);

Efforts are being made to broaden the customer base through market diversification, particularly this stratagem is apparent to avoid bad debts in the ailing industries.

SOAPS

Soaps sales volumes are declined and margins are reduced due to increased cost of raw material. Prices of palm oil escalated in 2017-2018 but is coming down and margins of this segment will be improved in the coming months.

BATTERY PLANT

Your Modaraba has started commercial production of lead acid batteries since February 2018. In the initial period, profitability is in Red due to following factors:

1. Manpower is to be built up and to be trained to build up through learning curve. Your Modaraba has hire full work force and are being trained by the Korean experts since this is new technology and local expertise are not available and has to be trained and built up with this passage of time;
2. Cost of Korean experts is relatively high but has to be born to develop the local workforce;
3. Production pace is slow and will be geared up gradually as learning curve is developed;
4. Depreciation and other fixed costs are to be born fully irrespective of production volumes;
5. Utilities costs are high due to diesel generation. But this will be calm down in the coming months since Modaraba's own grid is installed and functioning;

DIVIDEND

Cash dividend is Nil % (2017: 5.98% i.e. Rs. 0.5984 per Certificate) due to loss in the Modaraba.

Moreover, your Modaraba is continually reviewing its business strategy to cope with the threats and has been incessantly endeavoring not only to tap alternative inexpensive sources of raw material/ inputs but also trying to optimize the throughput.

APPROPRIATIONS

Final Dividend for the year ended June 30, 2018 @ Rs. Nil	Nil

FUTURE OUTLOOK

Inflation is itching up. The jump is even more pronounced in core inflation – a key measure reflecting the underlying inflationary pressures in the economy. Economic activity is likely to slow down in FY 2018-2019 a general macro-economic policy mix is focusing towards stabilization. This assessment takes shock of the following factors:

- (i) – a higher than anticipated increase in international oil prices
- (ii) – an upward revision in domestic gas prices
- (iii) – a further increase in regulatory duties on imports
- (iv) – exchange rate depreciation

As indicated above, international price indices are depicting international price upsurge.

The management of your Modaraba is well aware of the posed challenges and is deploying most feasible marketing mix at trade and retail levels and is taking all possible measures to meet these challenges.

CORRUGATED PACKAGING

Efforts are being made to rationalized inventory levels but pass-through effect is limited due to intense competition. Your Modaraba is working to explore new markets and likely to increase sales volumes in the coming months.

Soap

Palm oil prices that remained higher during the year but is calming down. It is expected that margins of this segment is likely to increase. Moreover, sales volumes that were reduce due to price rationalization will be restored.

DIRECTORS' REPORT

Battery

Your Modaraba has organized required resources (manpower, technical know-how etc.) during the year. Learning curve is being improved with the help of Korean experts. Moreover, utilities expenses will be coming down due to grid installation. Sales volumes will be improved as productions volumes are achieved. Your Modaraba is making full efforts to achieve positive EBITDA in Financial Year 2018-2019. Moreover, efforts are being made to explore export markets and necessary certifications are under process. Distribution channel is established and will be strengthen further in the coming month.

CORPORATE AND FINANCIAL REPORTING FRAMEWORK

- In compliance with the Code, the Board of Directors of Modaraba Company states that:

آڈٹ کمیٹی کے قواعد و ضوابط

کمیٹی وقفے وقفے سے مالیاتی گوشواروں پر غور کرتی ہے اور اس امر کو یقینی بنانے کے لیے مالیاتی پالیسیوں اور طور طریقوں کا جائزہ لیتی ہے کہ انٹرئل کنٹرول کا ایک موثر اور مضبوط نظام کام کر رہا ہے۔ یہ کمیٹی انٹرئل آڈٹ ڈیپارٹمنٹ کی طرف سے جاری کردہ آڈٹ رپورٹس اور آڈٹ آئزرویشنر کے کمپلائنس اسٹینڈرڈز کا بھی جائزہ لیتی ہے۔

یہ آڈٹ کمیٹی بورڈ آف ڈائریکٹرز کو ایکسٹرنل آڈیٹرز کے تقرر کی سفارش کرنے کی بھی ذمہ دار ہے اور ایکسٹرنل آڈیٹرز کے استعفا یا سبکدوشی، آڈٹ فیس اور مالیاتی گوشواروں کے آڈٹ کے علاوہ، ایکسٹرنل آڈیٹرز کی طرف سے کمپنی کو کسی سروس کی فراہمی جیسے معاملات پر بھی غور و خوض کرتی ہے۔

آڈٹ کمیٹی کا ضابطہ کار ان ضوابط کے مطابق ہے جن کا ذکر کوڈ آف کارپوریٹ گورننس میں ہے اور وسیع معنوں میں ان میں درج ذیل شامل ہیں:

- بورڈ آف ڈائریکٹرز کی طرف سے منظوری سے قبل مضاربہ کے عبوری اور سالانہ مالیاتی گوشواروں پر نظر ثانی۔
- عبوری اور حتمی آڈٹس سے پیدا ہونے والی بڑی آئزرویشنرز پر ایکسٹرنل آڈیٹرز کے ساتھ مشاورت؛ ایکسٹرنل آڈیٹرز کی طرف سے جاری کیے جانے والے مینجمنٹ لیٹر اور اس بارے میں انتظار میہ کے رد عمل کا جائزہ۔
- اس امر کو یقینی بنانے کے لیے انٹرئل آڈٹ کے دائرے اور حد کا جائزہ کہ آڈٹ فنکشن کے پاس مناسب وسائل ہیں اور یہ مضاربہ کے اندر صحیح طریقے سے کام کر رہا ہے۔
- فائنانشل اور آپریشنل کنٹرولز، اکاؤنٹنگ سسٹم اور رپورٹنگ اسٹرکچر سمیت، انٹرئل کنٹرول سسٹم کے مناسب اور موثر طریقے سے کام کرنے کے بارے میں معلومات کا حصول۔
- متعلقہ قانونی تقاضوں کی پابندی کا یقین اور کارپوریٹ گورننس کے بہترین طور طریقوں کی تعمیل پر نظر رکھنا۔
- خصوصی پرائیکٹس شروع کرنا، مبنی اسٹڈیز کی قدر و قیمت یا بورڈ آف ڈائریکٹرز کی طرف سے سونپے جانے والے کسی معاملے کی تفتیش۔
- ایکسٹرنل آڈیٹرز کی طرف سے جاری کردہ مینجمنٹ لیٹر اور اس بارے میں مینجمنٹ کے جواب پر غور۔

آڈٹ کمیٹی کی رپورٹ:

کمیٹی، بورڈ کی طرف سے منظور کردہ قواعد و ضوابط کے مطابق اپنے فرائض انجام دیتی ہے اور اس نے رواں مالی سال کے دوران درج ذیل کلیدی آئٹمز کا جائزہ لیا۔

فائنانشل رپورٹنگ:

کمیٹی نے مضاربہ کے عبوری اور سالانہ نتائج کا جائزہ لیا، مشاورت کی اور بورڈ کی منظوری کے لیے سفارش کی۔ کمیٹی نے مالیاتی معلومات کی تیاری میں اختیار کی جانے والی اہم اکاؤنٹنگ پالیسیوں، تخمینوں اور فیصلوں کے بارے میں سی ایف او، ایچ آئی اے اور مضاربہ کے ایکسٹرنل آڈیٹرز کے ساتھ گفت و شنید کی۔

کوڈ آف کارپوریٹ گورننس (سی سی جی) کی تعمیل کا جائزہ:

کمیٹی کوڈ آف کارپوریٹ گورننس کے بہترین طور طریقوں کی پابندی کو یقینی بنانے کو بہت زیادہ اہمیت دیتی ہے۔ اس ضمن میں کمیٹی سی سی جی کے ساتھ مضاربہ کی تعمیل کا سالانہ جائزہ لیتی ہے۔

ایکسٹرنل آڈیٹرز کا تقرر:

کمیٹی نے سی سی جی اور آڈٹ کمیٹی کے قواعد و ضوابط کے تقاضوں کے مطابق بورڈ کو ان کی منظوری کے لیے ایکسٹرنل آڈیٹرز کے تقرر اور مشاہرے کی سفارش کی۔

ایکسٹرنل آڈیٹرز کی طرف سے جاری کردہ مینجمنٹ لیٹر پر غور:

کمیٹی ایکسٹرنل آڈیٹرز کی طرف سے جاری کردہ مینجمنٹ لیٹر کا بھی جائزہ لیتی ہے، جس میں کنٹرول کی کمزوریوں پر روشنی ڈالی جاتی ہے۔ ایکسٹرنل آڈیٹرز کی طرف سے پہلے اجاگر کی گئی آئزرویشنر کے کمپلائنس اسٹینڈرڈز پر نظر ثانی کی جاتی ہے اور کنٹرول کے مجموعی ماحول کو بہتر بنانے کے لیے اصلاحی اقدامات پر مشاورت کی جاتی ہے۔

CORPORATE SOCIAL RESPONSIBILITY

TREET GROUP believes that a responsible attitude toward society and the environment can make a business more competitive, more resilient to shocks, and more likely to attract and hold both consumers and the best employees.

TREET GROUP feels that social attitude is a significant part of its risk management and reputation strategy. In a world where brand value and reputation are increasingly seen as a Treet Group's most valuable assets, responsible social attitude can build the loyalty and trust that ensure a bright sustainable future.

Fundamental to success for Treet Group (and to our vision and corporate values) are based on following premises:

CUSTOMERS

Our future existence relies on understanding and satisfying our customers' present and future needs. Our goal is to be recognized by our customers as a high quality, innovative and cost effective supplier, and the most desirable to do business with. We recognize that, as a result, the next person in the process is our customer.

OUR PEOPLE

We value our family of employees as essential to the success of our Treet Group. We aim to develop a long term trusting relationship with each employee, encouraging their contributions and assisting in their personal development and education. In all dealings we will be fair and consistent.

PRODUCTS AND SERVICES

We are recognized at large by our end products and services. We will endeavor to produce technologically advanced products and services that offer superior quality and value. Continued innovation and improvement are critical to our survival and growth.

SUPPLIERS

We view suppliers of goods and services as an extension of our Treet Group, with whom we wish to develop long term trusting relationships. We expect our suppliers to embrace our quality improvement philosophy in their dealing with us.

CERTIFICATE HOLDERS

We aim to be a Group in whom our certificate holders have trust and pride. We will keep our certificate holders properly informed of our Treet Group's performance and prospects. We recognize the need to provide our certificate holders with an excellent return on investment, consistent with long term growth.

PLANNING

All short term decisions will be consistent with long term objectives that balance the needs of our people, customers, suppliers and certificate holders. Each year these objectives will be widely communicated within our Treet Group.

CORPORATE SOCIAL RESPONSIBILITY

QUALITY IMPROVEMENT

We believe in step by step continual improvement of everything that we are engaged in, including our administration, marketing, sales, design, service, distribution and manufacturing. We will encourage crossfunctional communication and co-operation to aid this.

ENVIRONMENT

Reflecting our commitment to a cleaner world, we aim to develop products and manufacturing processes which are as friendly to the environment as practicable.

SOCIETY

We will conduct our business at all times in a fair, ethical, consistent and professional manner. We accept our responsibilities to be a responsible community neighbour, and will continue to support community affairs.

HEALTH, SAFETY AND ENVIRONMENT POLICY

It is Treet Group policy to;

- Minimize its environmental impact, as much as economically and practically possible
- Save raw material, water and energy and avoid wastage (and reprocess the waste to the maximum possible extent)
- Ensure that all its present and future activities are conducted safely without endangering the health of its employees, its customers and the public
- Develop plans and procedures and provide resources to successfully implement the policy and for dealing effectively with any emergency
- Provide environmental, health and safety training to all employees and other relevant persons to enable them to carry out their duties safely without causing harm to themselves, others and to the environment

14. The Modaraba has complied with all the corporate and financial reporting requirements of the CCG.
15. The Board has formed an Audit Committee. It comprises four Members. All Members are Non- Executive Directors and the Chairman of the Committee is an Independent Director.
16. The meetings of the Audit Committee were held at least once every quarter prior to approval of interim and final results of the Modaraba and as required by the CCG. The terms of reference of the committee ave been formed and advised to the committee for compliance.
17. The Board has set up an effective internal audit function which is considered suitably qualified and experienced for the purpose and is conversant with the policies and procedures of the Modaraba.
18. The statutory auditors of the Modaraba have confirmed that they have been given a satisfactory rating under the quality control review program of the ICAP, that they or any of the partners of the firm, their spouses and minor children do not hold shares of the Modaraba and that the firm and all its partners are in compliance with the International Federation of Accountants (IFAC) guidelines on the Code of Ethics as adopted by the ICAP.
19. The statutory auditors or the persons associated with them have not been appointed to provide other services except in accordance with the listing regulations and the auditors have confirmed that they have observed IFAC guidelines in this regard.
20. The 'closed period', prior to the announcement of interim/final results, and business decisions, which may materially affect the market price of Modaraba's securities, was determined and intimated to directors, employees and stock exchange(s).
21. Material/price sensitive information has been disseminated among all market participants at once through stock exchange(s)
22. HR Committee has not been formed because all the work force is out sourced.

STATEMENT OF COMPLIANCE WITH THE CODE OF CORPORATE GOVERNANCE FOR THE YEAR ENDED JUNE 30, 2018

23. In compliance with the Code of Corporate Governance, the Board has established mechanism for an annual evaluation of its own performance.
24. The Modaraba has complied with the requirements relating to maintenance of Register of persons having access to inside information by designated senior management officer in a timely manner and maintained proper record including basis for inclusion or exclusion of names of persons from the said list.
25. We confirm that all other material principles enshrined in the CCG have been complied with.

FINANCIAL STATEMENTS

For the year ended June 30, 2018

AUDITORS' REPORT TO THE CERTIFICATE-HOLDERS

We have audited the annexed balance sheet of First Treet Manufacturing Modaraba ("the Modaraba") as at June 30, 2017 and the related profit and loss account, statement of comprehensive income, cash flow statement and statement of changes in equity together with the notes forming part thereof, for the year then ended and we state that we have obtained all the information and explanations which, to the best of our knowledge and belief, were necessary for the purposes of our audit.

These financial statements are the Modaraba Management Company's responsibility who is also responsible to establish and maintain a system of internal control, and prepare and present the above said statements in conformity with the approved accounting standards as applicable in Pakistan and the requirements of the Modaraba Companies and Modaraba (Flotation and Control) Ordinance, 1980 (XXXI of 1980), and the Modaraba companies and Modaraba Rules, 1981. Our responsibility is to express an opinion on these statements based on our audit.

We conducted our audit in accordance with the auditing standards as applicable in Pakistan. These standards require that we plan and perform the audit to obtain reasonable assurance about whether the above said statements are free of any material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting policies and significant estimates made by the Modaraba Company, as well as, evaluating the overall presentation of the financial statements. We believe that our audit provides a reasonable basis for our opinion and, after due verification, we report that:

- a) in our opinion, proper books of account have been kept by the Modaraba Company in respect of the Modaraba as required by the Modaraba Companies and Modaraba (Flotation and Control) Ordinance, 1980 (XXXI of 1980), and the Modaraba companies and Modaraba Rules, 1981;
- b) in our opinion:
 - i. the balance sheet and profit and loss account together with the notes thereon have been drawn up in conformity with the Modaraba Companies and Modaraba (Flotation and Control) Ordinance, 1980 (XXXI of 1980), and the Modaraba companies and Modaraba Rules, 1981, and are in agreement with the books of account and are further in accordance with accounting policies consistently applied;
 - ii. the expenditure incurred during the period was for the purpose of the Modaraba's business; and
 - iii. the business conducted, investments made and the expenditure incurred during the year were in accordance with the objects, terms and conditions of Modaraba.
- c) in our opinion and to the best of our information and according to the explanations given to us, the balance sheet, profit and loss account, statement of comprehensive income, cash flow statement and statement of changes in equity together with the notes forming part thereof conform with approved accounting standards as applicable in Pakistan, and give the information required by the Modaraba Companies and Modaraba (Flotation and Control) Ordinance, 1980 (XXXI of 1980), and the Modaraba companies and Modaraba Rules, 1981, in the manner so required and respectively give a true and fair view of the state of the Modaraba's affairs as at June 30, 2017 and of the profit, its total comprehensive income, its cash flows and changes in equity for the year then ended; and
- d) in our opinion, Zakat deductible at source under the Zakat and Ushr Ordinance, 1980 (XVIII of 1980), was deducted by the Modaraba and deposited in the Central Zakat Fund established under section 7 of that Ordinance.

The financial statements of the Modaraba for the year ended June 30, 2017 were audited by the outgoing auditors' Messrs KPMG Taseer Hadi and Co., Chartered Accountants, Lahore, whose audit report dated October 07, 2016 expressed unqualified opinion.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 30 June 2018

1 Legal status and nature of business

First Treet Manufacturing Modaraba ("the Modaraba") is a multipurpose, perpetual and multi dimensional Modaraba formed on 27 July 2005 under the Modaraba Companies and Modaraba (Floatation and Control) Ordinance, 1980 and rules framed there-under and is managed by Treet Holdings Limited (a wholly owned subsidiary of Treet Corporation Limited), incorporated in Pakistan under the Companies Ordinance, 1984 and registered with the Registrar of Modaraba Companies. The registered office of the Modaraba is situated at 72 - B, Kot Lakhpat, Industrial Area, Lahore. The Modaraba is listed on Pakistan Stock Exchange Limited (Formerly Lahore Stock Exchange (Guarantee) Limited). The Modaraba is engaged in the manufacture and sale of corrugated boxes, soaps and batteries. During the year, the battery project of the Modaraba has commenced commercial production w.e.f February 02, 2018.

2 Basis of preparation

2.1 Statement of compliance

These financial statements have been prepared in accordance with the approved accounting standards as applicable in Pakistan. Approved accounting standards comprise of such International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board as are notified under the Companies Act, 2017, Islamic Financial Accounting Standards issued by the Institute of Chartered Accountants of Pakistan, provisions of and directives issued under Modaraba Companies and Modaraba (Floatation and Control) Ordinance, 1980, Modaraba Companies and Modaraba Rules, 1981 and directives issued by Securities and Exchange Commission of Pakistan (SECP). In case requirements of IFRS differ, the provisions of or directives issued under the Modaraba Companies and Modaraba (Floatation and Control) Ordinance, 1980 and Modaraba Companies and Modaraba Rules, 1981 and directives issued by SECP shall prevail.

2.2 Basis of measurement

These financial statements have been prepared under the historical cost convention, except for land and buildings which are carried at revalued amount.

2.3 Functional and presentation currency

These financial statements are presented in Pakistan Rupees which is the Modaraba's functional currency. All financial information presented in Pakistan Rupees has been rounded off to the nearest thousand, unless otherwise stated.

2.4 Significant accounting estimates

The preparation of financial statements in conformity with the approved accounting standards requires management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which estimates are revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 30 June 2018

The areas where assumptions and estimates are significant to the Modaraba's financial statements or where judgment was exercised in application of accounting policies are as follows:

2.4.1 Useful life and residual values of property, plant and equipment

The Modaraba reviews the useful life and residual value of property, plant and equipment on regular basis to determine that expectations are not significantly changed from the previous estimates. Further, where applicable, an estimate of the recoverable amount of assets is made for possible impairment on an annual basis. In making these estimates, the Modaraba uses the technical resources available with it. Any change in the estimates in the future might affect the carrying amount of respective item of property, plant and equipment, with corresponding effects on the depreciation / amortization charge and impairment, if any.

2.4.2 Stock in trade and stores and spare parts

The Modaraba reviews the net realizable value of items of stores, spare parts and loose tools and stock-in-trade to assess any possible impairment on annual basis. Net realizable value is estimated with reference to the estimated selling price in the ordinary course of business less the estimated cost necessary to make the sale. Any change in the estimates in the future might affect the carrying amount of respective item of store, spare parts and loose tools and stock in trade, with corresponding effects on the provision for impairment, if any.

2.4.3 Provision for doubtful debts, advances and other receivables

The Modaraba reviews recoverability of its trade debts, advances and other receivables on annual basis to assess amount of bad debts and provision there against. In particular, judgment by management is required in the estimation of the amount and timing of future cash flows when determining the level of provision required.

2.4.4 Employees' retirement benefits

The calculation of the benefit requires assumptions to be made of future outcomes, the principal ones being in respect of increase in remuneration and the discount rate used to convert future cash flows to current values. The assumptions used for the plan are determined by independent actuary on annual basis.

The amount of the expected return on plan assets is calculated using the expected rate of return for the year and the market-related value at the beginning of the year. Gratuity cost primarily represents the increase in actuarial present value of the obligation for benefits earned on employee service during the year and the interest on the obligation in respect of employee service in previous years, net of the expected return on plan assets. Calculations are sensitive to changes in the underlying assumptions.

2.4.5 Contingencies

The Modaraba has disclosed significant contingent liabilities for the pending litigations and claims against it based on its judgment and the advice of the legal advisors for the estimated financial outcome. The actual outcome of these litigations and claims can have an effect on the carrying amounts of the liabilities recognised at the financial position date. However, based on the best judgment of the Modaraba and its legal advisors, the likely outcome of these litigations and claims is remote and there is no need to recognise any liability at the financial position date.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 30 June 2018

2.4.6 Provision for income taxes

Instances where the Modaraba's view differs with the view taken by the income tax department at the assessment stage and where the Modaraba considers that its view on items of a material nature is in accordance with the law, the amounts are shown as contingent liabilities.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 30 June 2018

**Effective date
(annual periods
beginning on or after)**

2.5.3 Standards or interpretations not yet effective

The following new standards have been issued by the International Accounting Standards Board (IASB), which have been adopted locally by the Securities and Exchange Commission of Pakistan effective from the dates mentioned below against the respective standard:

IFRS 9 Financial Instruments	July 01, 2018
IFRS 15 Revenue from Contracts with Customers	July 01, 2018
IFRS 16 Leases	January 01, 2019

The following new standards and interpretations have been issued by the International Accounting Standards Board (IASB), which have not been adopted locally by the Securities and Exchange Commission of Pakistan (SECP):

IFRS 1 First Time Adoption of International Financial Reporting

IAS 14 Regulatory Deferral Accounts

IFRS 17 Insurance Contracts

The effects of IFRS 15 – Revenues from Contracts with Customers and IFRS 9 – Financial Instruments are still being assessed, as these new standards may have a significant effect on the company's future financial statements.

The company expects that the adoption of the other amendments and interpretations of the standards will not have any material impact and therefore will not affect the company's financial statements in the period of initial application.

3 Summary of significant accounting policies

The significant accounting policies adopted in preparation of these financial statements are set out below. These policies have been consistently applied to all years presented, except as mentioned in note 3.12 of these financial statements.

3.1 Taxation

Current

Under the current taxation law, income of the Modaraba is exempt from income tax provided it distributes at least 90% of its profits as cash dividend to the certificate holders out of current year's total profit after appropriating statutory reserves under section 37 of the Modaraba Companies and Modaraba (Floatation and Control) Ordinance, 1980.

Where such profit is not distributed, provision for current tax is made on taxable income for the year at the current tax rates applicable to Modaraba after taking into account the available tax exemptions and tax credits, if any.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 30 June 2018

Deferred

The Modaraba accounts for deferred taxation on all material temporary differences using the financial position liability method. However, deferred taxation has not been recognized in these financial statements as the management believes that the income of Modaraba will not be taxable in the foreseeable future as the Modaraba intends to continue availing the tax exemption through profit distribution of at least ninety percent of distributable profits.

3.2 Property, plant and equipment

Property, plant and equipment is stated at cost less accumulated depreciation and accumulated impairment losses, if any except for freehold land and buildings. Freehold land is stated at revalued amount carried out by independent valuers by reference to its current market price less impairment loss, if any. Buildings on freehold land is stated at revalued amount carried out by independent valuers by reference to its current market price less accumulated depreciation and impairment loss, if any. Any accumulated depreciation at the date of revaluation is eliminated against the gross carrying amount of the buildings, and the net amount is restated to the revalued amount of the buildings. Cost in relation to property, plant and equipment comprises acquisition and other directly attributable costs. The cost of self constructed assets includes the cost of materials, direct labor and any other costs directly attributable to bringing the assets to a working condition for their use as intended by the management.

Depreciation is provided on straight line method at rates specified in note 4.1 to the financial statements so as to write off the cost of property, plant and equipment over their estimated useful life. Depreciation on additions to property, plant and equipment is charged from the day on which an asset is available for use till the day the asset is retired from active use or the asset is disposed off.

Residual value and the useful life of assets are reviewed at each financial year end, and adjusted if expectations differ significantly from previous estimates and impact on depreciation is significant.

Residual values are determined by the management as the amount it expects it would receive currently for an item of property, plant and equipment if it was already of the age and in the condition expected at the end of its useful life based on the prevailing market prices of similar assets already at the end of their useful lives.

Useful lives are determined by the management based on the expected usage of assets, physical wear and tear, technical and commercial obsolescence, legal and similar limits on the use of the assets and other similar factors.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Modaraba and cost of the item can be measured reliably. All other repairs and maintenance costs are charged to profit and loss account as and when incurred.

Gain and loss on disposal of an item of property, plant and equipment is determined by comparing the proceeds from disposal with the carrying amount of property, plant and equipment, and is recognized as income or expense in the profit or loss account.

Capital work in progress

Capital work-in-progress represents expenditure on property, plant and equipment in the course of construction and installation. Transfers are made to relevant category of property, plant and equipment as and when assets are available for use. Capital work in progress is stated at cost, less any identified impairment loss.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 30 June 2018

Impairment tests for property, plant and equipment are performed annually or whenever there is an indication of impairment.

3.3 Stores and spares

These are valued at the lower of cost and net realizable value. The cost of inventory is based on moving average cost. Items in transit are stated at cost plus directly attributable expenses incidental thereto accumulated up to the date of statement of financial position. The Modaraba reviews the carrying amount of stores and spares on a regular basis and provision is made for obsolescence if there is any change in usage pattern and physical form of related stores, spares and loose tools.

Net realisable value specifies the estimated selling price in the ordinary course of business less the estimated cost of completion and cost necessarily to be incurred to make the sale.

3.4 Stock in trade

Stock of raw materials, packing materials, work-in-process and finished goods are valued at lower of moving average cost and net realizable value except for stock in transit which is valued at invoice price and related expenses. Cost in relation to work-in-process and finished goods includes prime cost and appropriate proportion of production overheads. Net realizable value signifies the estimated selling price in the ordinary course of business less estimated cost of completion and the cost necessary to be incurred to make the sales.

3.5 Trade and other receivables

These are carried at amounts recognized at invoice value which is the fair value of the consideration receivable less an estimate of doubtful debts based on a review of all outstanding amounts at the year end. Balances considered bad and irrecoverable are written off as and when identified, while debts considered doubtful of recovery, if any, are fully provided for in these financial statements.

3.6 Cash and cash equivalents

Cash and cash equivalents are carried in the statement of financial position at cost. For the purpose of statement of cash flows, cash and cash equivalents comprise cash in hand, current and deposit account balances with banks and outstanding balance of running finance facilities availed by the Modaraba, if any.

3.7 Trade and other payables

Accounts payable are classified as current liabilities if payment is due within one year or less (or in the normal operating cycle of business, if longer), if not, they are classified as non-current liabilities.

Liabilities for trade and other amounts payable are carried at cost which is the fair value of the consideration to be paid in future for goods and services received whether or not billed to the Modaraba.

3.8 Financial instruments

Financial assets and liabilities are recognized, when the Modaraba becomes a party to the contractual provisions of the instrument and de-recognized when the Modaraba loses control of the contractual rights to receive cash flows from the assets that comprise the financial asset or the rights have been transferred and the Modaraba has transferred substantially all the risks and rewards of ownership.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 30 June 2018

Financial assets include trade debts, advances, deposits, other receivables, cash and bank balances. These are initially recognized at fair value plus transaction costs except for financial assets at fair value through profit or loss, which are initially recognized at fair value and transaction costs are expensed in the profit and loss account. Any gain or loss on derecognition of financial assets and financial liabilities is included in the profit and loss account for the year.

Financial liabilities are recognized according to the substance of the contractual arrangements entered into. Significant financial liabilities are long term liability against purchase of land, short term borrowings, markup and profit payable, trade and other payables, retention money payable and due to related parties.

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expired. Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange and modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in respective carrying amounts is recognised in the statement of profit or loss.

Offsetting of financial assets and financial liabilities

A financial asset and liability is offset against each other and the net amount is reported in the financial statements only when the Modaraba has legally enforceable right to set off the recognized amount and intends either to settle on net basis or realize the asset and settle the liability simultaneously.

3.9 *Impairment*

Financial assets

Financial assets not carried at fair value through profit or loss are assessed at each reporting date to determine whether there is objective evidence of impairment. An impairment loss in respect of a financial asset measured at amortized cost is calculated as the difference between its carrying amount, and the present value of the estimated future cash flows discounted at the original effective interest rate. Impairment loss in respect of a financial asset measured at fair value is determined by reference to that fair value. Impairment losses on available for sale financial assets are recognized by reclassifying accumulated losses in fair value reserve to profit and loss account. All impairment losses are recognized in profit and loss. An impairment loss is reversed if the reversal can be related objectively to an event occurring after the impairment loss was recognized. An impairment loss is reversed only to the extent that the financial asset's carrying amount after the reversal does not exceed the carrying amount that would have been determined, if no impairment loss had been recognized. Impairment losses recognized in the profit and loss account on equity instruments are not reversed through the profit and loss account.

Non-financial assets

The carrying amount of the Modaraba's non-financial assets, other than inventories assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. A cash-generating unit is the smallest identifiable asset group that generates cash flows that largely are independent from other assets and groups. The recoverable amount of an asset or cash generating unit is the greater of its value in use and its fair value less cost to sell. In assessing value in use, the estimated future cash flows are discounted to their present values using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or cash generating unit.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 30 June 2018

An impairment loss is recognized if the carrying amount of the assets or its cash generating unit exceeds its estimated recoverable amount. Impairment losses are recognized in profit and loss. Impairment losses recognized in respect of cash generating units are allocated first to reduce the carrying amount of any goodwill allocated to the cash-generating unit and then to reduce the carrying amounts of the other assets in the unit on a pro rata basis. Impairment losses recognized in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to that extent that the asset's carrying amount after the reversal does not exceed the carrying amount that would have been determined, net of depreciation and amortisation, if no impairment loss had been recognized.

3.10 Non current assets classified as held for sale

Non current assets are classified as held for sale when the Modaraba intends to sell a non-current asset and if sale within twelve (12) months from the statement of financial position date is highly probable that the carrying amount of such assets will be recovered principally through sale rather than its continuing use. Accordingly, the asset is classified as 'held for sale' and presented separately in the statement of financial position after the current assets.

Assets classified as 'held for sale' are measured at the lower of their carrying amounts immediately prior to their classification as held for sale and their fair value less costs to sell. Once classified as 'held for sale', the assets are not subject to depreciation or amortisation.

3.11 Equity, reserves and profit distribution

Share certificate capital represents the face value of certificates that have been issued. Any transaction costs associated with the issuing of certificates are deducted from share certificate capital, net of any related income tax benefits, if any.

Retained earnings include all current and prior period retained profits.

Profit distribution to the certificate holders is recognized in the period in which it is approved.

3.12 Surplus on revaluation of property, plant and equipment

During the year the Company changed its accounting policy in respect of the accounting and presentation of revaluation surplus on property, plant and equipment. Previously, the Modaraba follows the requirement of section 235 of the repealed Companies Ordinance, 1984 and accordingly the surplus arising on revaluation of property, plant and equipment, computed by eliminating the accumulated depreciation as at the date of revaluation, was credited to the "Surplus on revaluation of property, plant and equipment" account shown below equity in the statement of financial position which was not in accordance with the requirements of IFRS Standards. However, the Companies Act, 2017 has now aligned the treatment of revaluation surplus as per accounting and reporting standards and accordingly "Surplus on Revaluation of property, plant and equipment is now being presented and recognised in the Statement of Other Comprehensive Income and accumulated in the Statement of Changes in Equity as a capital reserve. This change in accounting policy is disclosed in note: 3.23 of these financial statements. Following amounts are transferred from "Surplus on revaluation of property, plant and equipment" to Unappropriated Profits through Statement of Changes in Equity to record realization of surplus:

- an amount equal to incremental depreciation on revaluation surplus on property, plant and equipment for the year, if any; or
- an amount equal to carrying amount of revaluation surplus on property, plant and equipment, if any, on its disposal;

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 30 June 2018

3.13 Borrowing costs

Borrowing costs are interest or other costs incurred by the Modaraba in connection with the borrowing of funds. Borrowing cost that is directly attributable to qualifying assets is capitalized as part of cost of that assets until such time as the assets are substantially ready for their intended use or sale. All other borrowing costs are charged to profit and loss account whenever incurred.

3.14 Employees retirement benefits - related party

Defined contribution scheme

A recognized contributory provident fund scheme namely "Treet Corporation Limited - Group Employees Provident Fund" is in operation covering all permanent employees. Equal contributions are made monthly both by the Modaraba and employees in accordance with the rules of the scheme at 10% of the basic pay.

Another recognized contributory fund scheme is "Treet Corporation Limited - Group Employee Service Fund" which covers all permanent management employees. In accordance with the rules of the scheme, equal monthly contributions are made both by the Modaraba and employees at 10% of the basic pay from the date the employee gets permanent status. Additional contributions may be made by the Modaraba for those employees who have at the most 15 years of service remaining before reaching retirement age, however, employee can start their additional contribution above the threshold limit of 10% of basic pay at any time.

A recognized contributory fund scheme namely "Treet Corporation Limited - Group Employees Benevolent Fund" in operation for the benefit of employees if the employee opts for the scheme. The contributions to the fund are made @ 10% of employees basic salary on monthly basis by both employee and the employer. Periodic bonuses by the Modaraba to all the employees in any year, not exceeding one month's basic salary of an employee, is credited to his personal account in the Fund at the sole discretion of the Modaraba.

An unrecognized contributory fund scheme namely, "Treet Corporation Limited - Group Employees Housing Fund Scheme" is in operation covering permanent management employees with minimum five years of service with the Modaraba. Equal contributions are made monthly both by the Modaraba and employees in accordance with the rules of the Scheme at 20% of the basic pay.

Defined benefit scheme

An approved funded gratuity scheme and a funded superannuation schemes are in operation for all employees with qualifying service periods of six months and ten years respectively. These are operated through "Treet Corporation Limited - Group Employees Gratuity Fund" and "Treet Corporation Limited - Group Employee Superannuation Fund" respectively. The Company's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefits that employees have earned in current and prior periods, discounting that amount and deducting the fair value of any plan assets.

The calculation of defined benefit obligation is performed annually by a qualified actuary using the projected unit credit method. When calculation results in a potential assets for the Company, the recognized asset is limited to the present value of economic benefits available in the form of any future refunds from the plan or reduction in future contributions to the plan.

Re-measurement of net defined benefit liability, which comprise of actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest) are recognized immediately in other comprehensive income. The Company determines net interest expense/(income) on the defined benefit obligation for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to then-net defined benefit, taking into account any change in the net defined benefit obligation during the period as a result of contributions and benefit payments. Net interest expense and other expenses related to defined benefit plans are recognized in profit and loss.

3.15 Provisions

Provisions are recognized when the Modaraba has a present legal or constructive obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation and a reliable estimate of the amount can be made. However, provisions are reviewed at each reporting period to reflect the best current estimate. If it is no longer probable that an outflow of economic resources embodying economic benefits will be required to settle the obligation, the provisions are reversed.

3.16 Contingencies and commitments

These are not accounted for in the financial statements unless these are actual liabilities and are only disclosed when:

- a) there is a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non occurrence of one or more uncertain future events not wholly within the control of the Modaraba; or
- b) there is present obligation that arises from past events but it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation or the amount of the obligation cannot be measured with sufficient reliability.

The assessment of contingencies inherently involves the exercise of significant judgment as the outcome of the future events cannot be predicted with certainty. The Modaraba, based on the availability of the latest information, estimates the value of contingent assets and liabilities which may differ on the occurrence / non-occurrence of the uncertain future events.

3.17 Related party transactions

All transactions with related parties are executed at arm's length prices, determined in accordance with the pricing method as approved by the Board of Directors, except in rarely extreme circumstances, where subject to the approval of the Board, it is in the interest of the Modaraba to do so. Parties are said to be related if they are able to influence the operating and financial decisions of the Modaraba.

3.18 Foreign currency translation

Foreign currency transactions are translated into Pak Rupees which is the Modaraba's functional and presentation currency using the exchange rates approximating those prevailing at the date of the transaction. All monetary assets and liabilities in foreign currencies are translated into Pak Rupees using the exchange rate at the financial position date. Exchange gains and losses resulting from the settlement of such transactions and from the translations at the year end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognized in profit and loss account. All non-monetary assets and liabilities are translated in Pak Rupees using the exchange rates prevailing on the date of transaction or at the date when the fair value was determined.

3.19 Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The chief operating decision maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Board of Directors of the Modaraba Management Company that makes strategic decisions. Segments reported are corrugated boxes, soaps and batteries which also reflects the management structure of the Modaraba. The Modaraba is in the process of establishing a battery manufacturing unit in Faisalabad. The commercial production is expected to commence in next financial year.

3.20 Operating leases

Leases including ijarah financing where a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases. Payments made under operating leases (net of any incentive received from the lessor) are charged to profit on a straight line basis over the lease/ ijarah term unless another systematic basis is representative of the time pattern of the Modaraba's benefit.

3.21 Revenue recognition

- i) Revenue represents the fair value of the consideration received or receivable for goods sold, net of discounts and sales tax. Revenue is recognized when it is probable that the economic benefits associated with the transaction will flow to the Modaraba and the amount of revenue, and the associated cost incurred, or to be incurred, can be measured reliably and there is no continuing management involvement with the goods.

Revenue from sale of goods is recognized when the significant risk and rewards of ownership of the goods are transferred to the buyer.

- ii) Return on bank deposits is accounted for on a time proportion basis using the effective rate of return/profit.
- iii) Other revenues are recorded on accrual basis.

3.22 Earning per share (EPS)

Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Modaraba by the weighted average number of ordinary shares outstanding during the year.

Diluted EPS is calculated by adjusting basic EPS by the weighted average number of ordinary shares that would be issued on conversion of all dilutive potential ordinary shares into ordinary shares and post-tax effect of changes in profit or loss attributable to ordinary shareholders of the Modaraba that would result from conversion of all dilutive potential ordinary shares into ordinary shares.

3.23 Change in accounting policy

The promulgation of Companies Act, 2017 has introduced changes in the presentation and accounting treatment of surplus on revaluation of property, plant and equipment in alignment with the requirements of the IFRS Standards as disclosed in note-3.12. This change in accounting policy is treated in accordance with the Para 45 of IAS 8, "Accounting policies, Changes in accounting estimates and Errors". The effect of these adjustments in these financial statements is, as under:

	Amount Rupees	
	Effect on June 30, 2017	Effect on July 1, 2016
Effect on the statement of financial position		
Increase in equity	28,371	29,753
Decrease in surplus on revaluation of property, plant and equipment	(28,371)	(29,753)
Effect on the Statement of changes in equity Increase in capital reserve	28,371	29,753

Since, the above stated change in accounting policy was applicable to the comparative period and the beginning of the comparative period as the Modaraba had undergone revaluation as at June 30, 2014 and has effect on capital reserves as at that date and for the succeeding periods, therefore, this change in accounting policy is treated by restating the figures of the comparative period and the opening balance of the earliest period presented. Accordingly, the opening statement of financial position of the earliest period is presented in accordance with the para 40A of IAS-1, "Presentation of financial statements" in these financial statements. Furthermore, this change in accounting policy has no impact on 'Earnings per share' of the company.

4.1.6 Land and buildings were last revalued on 30 June 2014 by Messrs. Zafar Iqbal & Co (PBA approved valuers, inspectors and engineers) resulting in surplus of Rs. 43.95 million. The basis used for revaluation were as follows:

Freehold land

Fair market value of freehold land was assessed through inquiries to real estate agents and property dealers in near vicinity of freehold land. Different valuation methods and exercises were adopted according to experience, location and other usage of freehold land. Valuer had also considered all relevant factors as well.

Buildings

Construction specifications were noted for each building and structure and new construction rates are applied according to construction specifications for current replacement values. After determining current replacement values, depreciation was calculated to determine the current assessed market value.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 30 June 2018

31 Financial instruments

The Modaraba has exposure to the following risks from its use of financial instruments:

- Credit risk
- Liquidity risk
- Market risk

The Board of Directors of the Modaraba management company has overall responsibility for the establishment and oversight of Modaraba's risk management framework. The Board is also responsible for developing and monitoring the Modaraba's risk management policies. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Modaraba's activities.

This note presents information about the Modaraba's exposure to each of the above risks, the Modaraba's objectives, policies and processes for measuring and managing risk, and the Modaraba's management of capital.

All derivative activities for risk management purposes are carried out by specialist teams that have the appropriate skills, experience and supervision. The Modaraba does not engage in the trading of financial assets for speculative purposes nor does it write options.

The Modaraba's risk management policies are established to identify and analyze the risks faced by the Modaraba, to set appropriate risk limits and controls, to monitor risks and adherence to limits and focuses on actively securing the short to medium-term cash flows by minimizing the exposure to financial markets. The Modaraba through its training and management standards and procedures aims to maintain a disciplined and constructive control environment in which employees understand their roles and responsibilities.

The Board Audit Committee of the Modaraba management company oversees how management monitors compliance with the Modaraba's risk management policies and procedures and reviews the adequacy of the risk management framework in relation to the risks faced by the Modaraba. The Audit Committee is assisted in its oversight role by Internal Audit. Internal Audit undertakes both regular and ad-hoc reviews of risk management controls and procedures, the results of which are reported to the Board Audit Committee.

31.1 Credit risk and concentration of credit risk

Credit risk is the risk of financial loss to the Modaraba if a customer or a counterparty to a financial instrument fails to meet its contractual obligations. To manage credit risk the Modaraba maintains procedures covering the application for credit approvals, granting and renewal of counterparty limits and monitoring of exposures against these limits. As part of these processes the financial viability of all counterparties is regularly monitored and assessed. The credit risk arises principally from the Modaraba's receivables from customers, refundable deposits and advances, other receivables and bank balances. Out of the total financial assets of Rs. 811.314 million (2017: Rs. 811.314 million) financial assets which are subject to credit risk amounted to Rs. 804.830 million (2017: Rs. 804.830 million).

The carrying amount of financial assets represents the maximum credit exposure before any credit enhancements. The maximum exposure to credit risk at the reporting date is:

Credit quality of financial assets is assessed by reference to external credit ratings, where available, or to historical information about counterparty default rates. Banks and financial institutions have external credit ratings determined by various credit rating agencies. Credit quality of customers and other receivables are assessed by reference to historical defaults rates and present ages.

Customers are counterparties to local trade debts against sale of corrugation and soaps. New customer is analyzed individually for creditworthiness before the Modaraba's standard payment and delivery terms and conditions are offered. Sales limits are established for each customer based on internal rating criteria and reviewed regularly. Any sales exceeding these limits require special approval. Outstanding customer receivables are regularly monitored. The analysis of ages of trade debts of the Modaraba as at the reporting date is as follows:

Not past due	-	330,074
Past due but not impaired		
Less than 30 days	-	142,638
Past due 1 - 3 months	-	98,094
Past due 3 - 6 months	-	39,678
Past due 6 - 12 months	-	3,595
Above one year	-	1,532

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 30 June 2018

Exposure to credit risk

The credit risk on liquid funds is limited because the counter parties are banks with reasonably high credit ratings. Due to the Modaraba's long standing business relationships with these counterparties and after giving due consideration to their strong financial standing, management does not expect non-performance by these counter parties on their obligations to the Modaraba. Accordingly, the credit risk is minimal.

Coporate informations and relationship with banks

The Modaraba has relationship on islamic side with the banks having islamic window operations.

31.2 Liquidity risk

Liquidity risk is the risk that the Modaraba will not be able to meet its financial obligations as they fall due. The Modaraba's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions. For this purpose the Modaraba maintains a statutory reserve out of profits each year and has effective cash management and planning policy to ensure availability of funds and to take appropriate measures for new requirements. Management closely monitors the Modaraba's liquidity and cash flow position. This includes maintenance of financial position liquidity ratios, debtors and creditors concentration both in terms of the overall funding mix and avoidance of undue reliance on large individual customers.

The Board of Directors has built an appropriate liquidity risk management framework for the management of the Modaraba's short, medium and long-term funding and liquidity management requirements. The Modaraba manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows and matching the maturity profiles of financial assets and liabilities. Included in note 19.1 to these financial statements is a listing of additional undrawn facilities that the Company has at its disposal to further reduce liquidity risk.

The table below summaries the maturity profiles of company's financial liabilities as on June 30, 2018 based on contractual undiscounted payments date and present market interest rates.

31.3 Market risk

Market risk is the risk that changes in market prices will affect the Modaraba's income or the value of its holdings of financial instruments. The objective of the Modaraba's market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return on risk.

31.3.1 Currency risk

The Modaraba is exposed to currency risk to the extent that there is a mismatch between the currencies in which receivables and purchases are denominated and the respective functional currency of the Company i.e. Pakistani Rupee. The Modaraba is exposed to currency risk on import of plant and machinery, raw materials and stores and spares mainly denominated in US dollars. Receivables and payables exposed to foreign currency are not covered through any forward foreign exchange contracts or through hedging. The Modaraba's exposure to foreign currency risk for US Dollars is as follows:

	2018 (Rupees in thousand)	2017
Creditors in foreign currency	340	1,259

The following significant exchange rate has been applied:

	Average rate		Reporting date rate	
	2018	2017	2018	2017
USD to PKR	113.3	104.85	121.6	105

Cash flow sensitivity analysis for foreign currency instruments

At June 30, 2018, if the Rupee had weakened/strengthened by 10% against the US dollar with all other variables held constant, capital work in progress would have been higher / lower by Rs. 4.140 (2017: Rs. 13.219) million, mainly as a result of foreign exchange gains/losses on translation of US dollar-denominated trade payables.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 30 June 2018

31.3.2 Profit rate risk

Profit rate risk is the risk that fair values or future cash flows of a financial instrument will fluctuate because of changes in profit rates. Sensitivity to profit rate risk arises from mismatch of financial assets and financial liabilities that mature or re-price in a given period. The Modaraba manages these mismatches through risk management strategies where significant changes in gap position can be adjusted. The short term borrowing and cash at bank kept in saving accounts by the Modaraba has variable rate pricing that is mostly dependent on Karachi Inter Bank Offer Rate ("KIBOR") as indicated in respective notes.

The Modaraba's profit bearing financial instruments as at the reporting date are as follows:

	2018 (Rupees in thousand)	2017
Variable pricing rate financial assets		
Bank balances at PLS accounts	258,980	126,099
Variable pricing rate financial liabilities		
Short term borrowings	1,947,001	300,000

The effective profit rates for profit bearing financial instruments are mentioned in the relevant notes to these financial statements.

Cash flow sensitivity analysis for variable rate instruments

Sensitivity analysis for variable rate assets

If profit rates at the year end date, fluctuates by 1% higher / lower with all other variables held constant, (loss) / profit after taxation would have been (decreased) / increased by Rs. 2.590 (2017: Rs. 1.261) million. This analysis is prepared without taking in account taxation effect and applying +/-1% discount factor on cash at banks in saving accounts reported in these financial statements.

Sensitivity analysis for variable rate liabilities

If profit rates at the year end date, fluctuates by 1% higher / lower with all other variables held constant, (loss) / profit after taxation would have been increased / (decreased) by Rs. 19.470 (2017: Rs. 3.0) million. This analysis is prepared without taking in account taxation effect and applying +/-1% discount factor on short term borrowings reported in these financial statements.

31.3.3 Other price risk

Other price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting all similar financial instruments trading in market.

Exposure to price risk

The Modaraba is not exposed to any price risk as there are no financial instruments at the reporting date that are sensitive to price fluctuations.

31.5 Operational risk

Operational risk is the risk of direct or indirect loss arising from a wide variety of causes associated with the Modaraba's processes, personnel, technology and infrastructure, and from external factors other than credit, market and liquidity risks such as those arising from legal and regulatory requirements and generally accepted standards of corporate behaviour. Operational risks arise from all of the Modaraba's operations.

The Modaraba's objective is to manage operational risk so as to balance the avoidance of financial losses and damage to the Modaraba's reputation with overall cost effectiveness and to avoid control procedures that restrict initiative and creativity.

The primary responsibility for the development and implementation of controls to address operational risk is assigned to senior management within the Modaraba. This responsibility is supported by the development of overall Modaraba standards for the management of operational risk in the following areas:

- requirements for appropriate segregation of duties, including the independent authorization of transactions;
- requirements for the reconciliation and monitoring of transactions;
- compliance with regulatory and other legal requirements;
- Documentation of controls and procedures;
- requirements for the periodic assessment of operational risks faced, and the adequacy of controls and procedures to address the risks identified;
- Requirements for the reporting of operational losses and proposed remedial action
- Development of contingency plans;
- Training and professional development;
- ethical and business standards; and

- risk mitigation, including insurance where this is effective.

31.6 Fair value measurement of financial instruments

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Underlying the definition of fair value is the presumption that the company is a going concern and there is no intention or requirement to curtail materially the scale of its operations or to undertake a transaction on adverse terms.

A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

IFRS 13 'Fair Value Measurement' requires the Modaraba to classify fair value measurements and fair value hierarchy that reflects the significance of the inputs used in making the measurements of fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (Level 1)
- Inputs other than quoted prices included within level 1 that are observable for the asset either directly (that is, derived from prices) (Level 2)
- Inputs for the asset or liability that are not based on observable market data (that is, unadjusted) inputs (Level 3)

Transfer between levels of the fair value hierarchy are recognised at the end of the reporting period during which the changes have occurred. However, no transfers between levels of fair value during the year have occurred.

The carrying value of all financial assets and liabilities reflected in the financial statements approximate their fair values.

31.7 Capital management

The Board's policy is to maintain an efficient capital base so as to maintain investor, creditor and market confidence and to sustain the future development of its business. The Board monitors the return on capital employed, which the Modaraba defines as operating income divided by total capital employed.

The Modaraba's objectives when managing capital are:

- (i) to safeguard the entity's ability to continue as a going concern, so that it can continue to provide returns for certificate holders and benefits for other stakeholders, and
- (ii) to provide an adequate return to certificate holders.

The Modaraba manages the capital structure in the context of economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Modaraba may, for example, adjust the amount of dividends paid to certificateholders, issue new certificates, or sell assets to reduce debt.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 30 June 2018

The gearing ratios as at June 30, 2018 are as follows:
