BUSINESS REVIEW – TREET CORPORATION LIMITED (TCL)

TCL's exceptional performance during the period is reflected in the remarkable 19% increase in net sales, reaching an impressive Rs. 3,003 million from Rs. 2,515 million in the same period last year. This growth is attributed to the company's successful local and export sales strategies, which have contributed to its strong market position. Furthermore, TCL's gross profit increased by 8% to Rs. 809 million, compared to Rs. 751 million same period last year. During these strenuous times with unprecedented economic challenges, TCL managed to maintain its profitability demonstrating the company's resilience and adaptability in the face of market challenges.

Operating Profit sits at Rs. 366 million, shows a decline of 9% over corresponding last year (Q1 2023: Rs. 404 million). Administration and selling & distribution expenses increased by 33% and 23% respectively in comparison to same period last year. This increase primarily reflects the effects of inflation and salary adjustments. Salary increments for the FY 2023-2024 were implemented at the beginning of the year, whereas in the previous, the increments were carried out in the second quarter. Financing cost has hit us adversely, due to the massive increase in the borrowing rates. Although, partial repayment was made to the banks but the reduction in the borrowing was offset by the impact of higher borrowing cost which has increased 89% in comparison to the same period last year, amounting to Rs. 531 million (Q1 2023: Rs 281 million).

TCL has announced its plans to generate Rs. 2.5 billion through a right issue of shares. The primary goal of this capital raising initiative is to enhance the financial flexibility of TCL's Balance Sheet by eliminating its existing short-term debt.

Directors' Review

BUSINESS REVIEW – GROUP RESULTS

In the first quarter of FY 2023-2024, the Group achieved a turnover of Rs. 6,679 million, representing a significant increase of Rs. 801 million (14%) compared to the same period in the previous year. This growth can be attributed to increased sales values across all segments.

During the period under review, the cost of sales reached Rs. 5,136 million, which is 7% higher than the same period last year (Q1 2023: Rs. 4,812 million). This increase is directly proportional to the higher sales volume. However, despite the increase in costs, the gross profit showed a remarkable improvement of 45% over the same period last year, reaching Rs. 1,542 million (Q1 2023: Rs. 1,066 million). This improvement can be attributed to both increased sales volumes and price rationalization. To sustain profit margins, the company proactively managed to pass on the impact of inflation to customers through regular price revisions throughout the year. Additionally, rigorous cost control measures played a crucial role in generating an operating profit of Rs. 854 million, showing a 65% improvement over the corresponding period last year (Q1 2023: Rs. 518 million). Despite facing challenges such as the significant increase in interest rates due to monetary policies, the Group managed to achieve a significant improvement in net profit of 444% compared to the same period last year. The Group earned a net profit of Rs. 117 million, a substantial improvement from the loss of Rs. 34 million in the same period last year. This level of profit translated into an earnings per share (EPS) of Rs. 0.54, compared to a loss per share of Rs. 0.20 in the same period last year.

“Despite challenging year, TCL managed to report consolidated net profit of PKR 117m due to price increases and cost controls allowing margins to expand”

Segment wise sales is as follows:

(Rupees in million)

	Sales			
	September 30, 2023	September 30, 2022	Increase / (Decrease)	% Change
Blades	3,001	2,515	486	19%
Soaps	422	191	231	121%
Packaging products	780	728	52	7%
Batteries	2,166	2,233	(67)	(3)%
Motor bike project	5	7	(2)	(29)%
Trading operation	2	1	1	100%
Pharmaceutical products	303	203	100	49%

Directors' Review

TREET BATTERY LIMITED (TBL)

In the first quarter of FY 2023/24, the company achieved a net profit of Rs. 0.53 million, a significant turnaround from the net loss of Rs. 177 million in the same period last year. Despite a 3% decrease in sales value and a 35% reduction in volume, the gross margin exhibited a robust increase of 189% compared to the corresponding period last year.

The decline in volume is attributed to a persistently challenging economic environment, reduced load shedding, and a weakened purchasing power parity among consumers. However, the adverse impact of these challenges has been partially mitigated by our price rationalization initiative, effective cost control measures, and enhanced plant operations. The company realized a noteworthy enhancement in its operating profit, reaching Rs. 319 million in comparison to Rs 25 million in corresponding period last year. Nevertheless, it's crucial to note a considerable spike in finance costs, totaling Rs. 294 million, marking a 67% increase from the same period last year. This heightened financing cost is predominantly attributed to our highly leveraged financial structure, posing a challenge to our margins.

FIRST TREET MANUFACTURING MODARABA (FTMM)

FTMM has demonstrated remarkable improvement in both of its segments. In the first quarter of FY 2023/2024, the company achieved a turnover of Rs. 1,228 million, representing a substantial increase of Rs. 291 million (31%) compared to the same period last year. This growth can be attributed to increased sales in terms of both value and volume. Furthermore, the gross profit of FTMM showed a significant increase of Rs. 10 million (10%) over the same period last year. This improvement can be attributed to price rationalization and rigorous cost control measures implemented during the period. Through these measures, FTMM was able to achieve an operating profit of Rs. 87 million. This demonstrates the company's ability to effectively manage costs and generate consistent profits. In terms of net profit, FTMM achieved Rs. 73 million, which is an increase of Rs. 9 million compared to the same period last year. This improvement showcases the company's overall financial performance and its ability to generate higher profits. Overall, FTMM has shown significant growth and improvement in both its turnover and profitability, highlighting its strong performance in the market.

RENACON PHARMA LIMITED (RPL)

The net revenue for the first quarter is Rs. 303 million which has increased by 48% as compared to same period last year (Q1 2023: 33 million). Gross profit at Rs. 111 million shows significant improvement of 319% over corresponding period (Q1 2023: Rs. 27 million). The improvement is primarily due to price rationalization. Profit after tax is Rs. 48 million compared to profit after tax of Rs. 3 million same period last year. The work on new production facility is being carried out and it is expected that plant will start its commercial operations somewhere in the third quarter of this financial year.

ACKNOWLEDGEMENTS

We place on record our gratitude to our valued customers for their confidence in our products and pledge to provide them the best quality by continually improving our products. We would also like to thank all our colleagues, management and factory staff who are strongly committed to their work as the success of your Company is built around their efforts. We also thank our shareholders for their confidence in our Company and assure them that we are committed to do our best to ensure best rewards for their investment in the Company.
